## 2.0 IMPORTANT SAFETY INSTRUCTIONS

**Read and understand the entire contents of this manual before attempting set-up or operation of this mill/drill.**

**This machine is designed and intended for use by properly trained and experienced personnel only.** If you are not familiar with the proper safe use of mill/drills, do not use this machine until proper training and knowledge has been obtained.

**Keep guards in place.** Safety guards must be kept in place and in working order.

**Remove adjusting keys and wrenches.** Before turning on machine, check to see that any adjusting wrenches are removed from the tool.

**Reduce the risk of unintentional starting.** Make sure switch is in the OFF position before plugging in the tool.

**Do not force tools.** Always use a tool at the rate for which it was designed.

**Use the right tool.** Do not force a tool or attachment to do a job for which it was not designed.

**Maintain tools with care.** Keep tools sharp and clean for best and safest performance. Follow instructions for lubrication and changing accessories.

**Always disconnect the tool from the power source before adjusting or servicing.**

**Check for damaged parts.** Check for alignment of moving parts, breakage of parts, mounting, and any other condition that may affect the tools operation. A guard or any part that is damaged should be repaired or replaced.

**Turn power off. Never leave a tool unattended.** Do not leave a tool until it comes to a complete stop.

**Keep work area clean.** Cluttered areas and benches invite accidents.

**Do not use in a dangerous environment.** Do not use power tools in damp or wet locations, or expose them to rain. Keep work area well lighted.

**Keep children and visitors away.** All visitors should be kept a safe distance from the work area.

**Make the workshop child proof.** Use padlocks, master switches, and remove starter keys.

**Wear proper apparel.** Loose clothing, gloves, neckties, rings, bracelets, or other jewelry may get caught in moving parts. Non-slip footwear is recommended. Wear protective hair covering to contain long hair. Do not wear any type of glove.

**Always use safety glasses.** Every day glasses only have impact resistant lenses; they are not safety glasses.

**Do not overreach.** Keep proper footing and balance at all times.

**Do not place hands near the cutterhead while the machine is operating.**

**Do not perform any set-up work while machine is operating.**

**Read and understand all warnings posted on the machine.**

**This manual is intended to familiarize you with the technical aspects of this mill/drill.** It is not, nor was it intended to be, a training manual.

**Failure to comply with all of these warnings may result in serious injury.**

**⚠ WARNING:** This product can expose you to chemicals including lead which is known to the State of California to cause cancer and birth defects or other reproductive harm, and ethylbenzene which is known to the State of California to cause cancer. For more information go to <http://www.p65warnings.ca.gov>.

**⚠ WARNING:** Some dust, fumes and gases created by power sanding, sawing, grinding, drilling, welding and other construction activities contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Some examples of these chemicals are:

- lead from lead based paint
- crystalline silica from bricks, cement and other masonry products
- arsenic and chromium from chemically treated lumber

Your risk of exposure varies, depending on how often you do this type of work. To reduce your exposure to these chemicals, work in a well-ventilated area and work with approved safety equipment, such as dust masks that are specifically designed to filter out microscopic particles. For more information go to <http://www.p65warnings.ca.gov/> and <http://www.p65warnings.ca.gov/wood>.

### 3.0 Specifications

	<b>VMD-15</b>	<b>VMD-18</b>
Stock No.	1231787	1231788
Drilling Capacity	1"	1-1/4"
Face Mill Capacity	2-1/2"	3"
End Mill Capacity	1/2"	3/4"
Swing	14-1/2"	15-7/8"
Maximum Distance Spindle to Table	15"	17-1/2"
Spindle Taper	R-8	R-8
Spindle Travel	3-1/2"	5"
Quill Diameter	2-1/2"	3"
Head Swivel	360°	360°
Column Diameter	3-5/8"	4-1/2"
Number of Power Downfeeds	----	----
Range of Power Downfeeds	----	----
Number of Spindle Speeds	12	12
Range of Spindle Speeds	110-2,580 RPM	150-3,000 RPM
Maximum Table Travel	14"	20-1/2"
Cross Travel	6"	7"
Working Surface of Table	7-1/2" x 23"	9-1/2" x 31-3/4"
Number of T-Slots	4	4
T-Slot Size	9/16"	5/8"
T-Slot Centers	1-1/2"	2-1/8"
Overall Dimensions	36-1/2"L x 37-1/2"W x 35-1/2"H	42-1/2"L x 39-3/4"W x 43-1/2"H
Base Dimensions	12-1/2" x 19-3/4"	15-3/4" x 23-3/4"
Motor (UL listed)	1HP, 1PH, 115/230V <b>(prewired 115V)</b> , 60Hz	2HP, 1PH, 115/230V, <b>(prewired 115V)</b> , 60Hz
Net Weight (approx.)	440 lbs.	660 lbs.
Shipping Weight (approx.)	540 lbs.	760 lbs.

The specifications in this manual are given as general information and are not binding. BAILEIGH reserves the right to effect, at any time and without prior notice, changes or alterations to parts, fittings, and accessory equipment deemed necessary for any reason whatsoever.

## 4.0 Contents of Shipping Container

### 1 Mill/Drill Machine

#### Accessory Package:

- 1 1/2" Drill Chuck w/ Chuck Key
- 1 Adjustable Carbide Facemill
- 1 Facemill Arbor
- 1 Bolts, Nuts, and Washers to Attach Vise to Table
- 1 2-1/2" Angle Vise (VMD-15)
- 1 3" Angle Vise (VMD-18)
- 3 Handle Rods (VMD-15/18)
- 3 Rubber Knobs (VMD-15/18)
- 1 3/8"x1" Hex Socket Cap Screw
- 1 3/8" Washer
- 1 Crank Body (Installed)
- 1 Crank Handle
- 1 Spindle Guard Assembly
- 1 3mm Hex Wrench
- 1 4mm Hex Wrench
- 1 5mm Hex Wrench
- 1 23mm Wrench (VMD-18)
- 3 Hand Wheels w/ Handles
- 1 Can Touch-Up Paint
- 1 Owner's Manual
- 1 Warranty Card
- 1 Lifting Hook (Installed)

## Tools Needed for Assembly

8" Adjustable Wrench or 1/4" to 1-1/4"  
Combination Wrench Set

(VMD-18 shown with optional BS-18 stand)

## 5.0 Unpacking and Clean-up

1. Finish removing the crate from the mill/drill. Unbolt the machine from the crate bottom. Report shipping damage, if any, to your distributor.
2. Clean all rust protected surfaces using a mild commercial solvent, kerosene or diesel fuel. Do not use paint thinner, gasoline, or lacquer thinner. These will damage painted surfaces. Cover all cleaned surfaces with a light film of Mobil DTE® Oil Heavy Medium.
3. Open the belt cover and thread the lifting hook into the head.
4. Carefully lift the mill/drill with properly rated equipment to a sturdy stand or work bench.
5. Remove the lifting hook.

## 6.0 Assembly

1. Screw rubber handles (A, Fig. 1) onto handle rod (B, Fig. 1). Screw handle rod into downfeed hub (C, Fig. 1) and tighten. Flat spot on rod accommodates a combination or adjustable wrench. **Note:** Handle shafts are already installed into hub on VMD-18.
2. Repeat for other two rod assemblies.
3. Slide crank (D, Fig. 2) onto shaft and tighten set screw (E, Fig. 2). Be sure set screw seats on flat part of shaft.
4. Thread handle (F, Fig. 2) into crank and tighten.
5. Slide handwheel (G, Fig. 3) onto table handwheel shaft and tighten set screw. Insert handle (H, Fig. 3) into handwheel and tighten.
6. Repeat for two remaining table hand wheels.
7. Install spindle guard assembly (Figure 3a).

Fig. 1

Fig. 2

Fig. 3

Fig. 3a

## 7.0 Installation

**WARNING** Machine is heavy! Use an appropriate lifting device and use extreme caution when moving the machine to its final location. Failure to comply may cause serious injury.

1. The location for the mill/drill should be well lit, dry, and have room enough to allow the head to rotate 360°.
2. Before bolting the mill/drill to a bench or stand, the unit must be level in both directions. Place a level on the table in both directions.
3. If the table is not level, shim under the low corner(s) until level. Tighten the fastening bolts. Check for level again. Adjust as necessary until the mill/drill is level after the fastening hardware has been tightened.

## 8.0 Lubrication

Lubricate ball oilers (A, Fig. 4) by the X/Y-axis hand wheels, the oiler at the raising/lowering crank handle, and the oiler on front of the bed once daily with Mobil DTE® Oil Heavy Medium.

Lubricate the ways (B, Fig. 4) once daily with Mobil DTE® Oil Heavy Medium.

If the head does not rise or lower smoothly, apply Mobilith AW2 to the rack, and Mobil DTE® Oil Heavy Medium to the column.

If the feed handles do not turn smoothly, apply Mobilith AW2 to the cross and longitudinal lead screws (C, Fig. 4). Access the cross lead screw by moving the table forward and removing the way cover.

The spindle bearings are permanently sealed and require no lubrication.

## 9.0 Electrical Connections

**A**WNING A qualified electrician must make all electrical connections. Make sure the Mill/Drill is properly grounded. Failure to comply may cause serious injury.

Before making any electrical connections, make sure the power source available is compatible with the machine. Also, turn the machine OFF using the buttons or switch at the front of the machine before connecting to the power source.

The VMD Mill/Drills are rated at 115/230V and come from the factory **prewired at 115V**. The VMD-15 comes with a plug designed for use on a circuit with an outlet that looks like the one in Fig. 5, and has a grounding prong as illustrated in Fig. 5. The VMD-18 is not provided with a plug.

To switch the Mill/Drill to 230V operation:

1. Disconnect machine from power source.
2. Remove junction box cover on the motor.
3. Change the wires according to the diagram on the inside of the junction box cover, and reinstall junction box cover.
4. Replace thermal relay with one rated for 230V operation (see parts list).

5. Change power plug to one rated for 230V and the appropriate amperage for your machine, or hard wire the power cord to the service panel (make sure a disconnect is available for the operator).

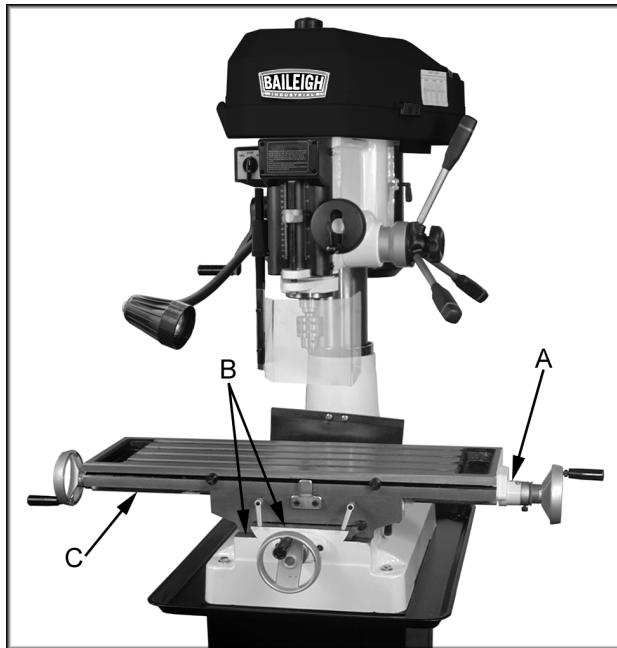

Fig. 4

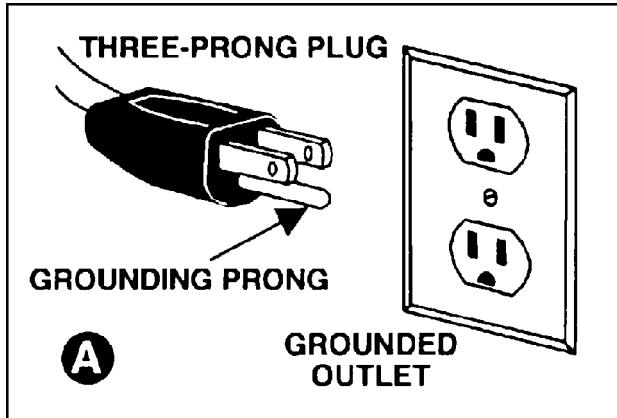

Fig. 5

## 10.0 Controls

### Longitudinal Hand Wheels: (X-axis) (A, Fig. 6)

Located on either side of the table. Moves table side to side.

### Cross Feed Hand Wheel: (Y-axis) (B, Fig. 6)

Located on the front of the base. Moves table toward, or away from the column.

### Adjustable Table Stops: (C, Fig. 6)

Located on table front. Adjust to stop table at any setting along the longitudinal axis.

### Table Locks: (D & E, Fig. 6)

Longitudinal table locks are located on front of the table. Cross-feed table locks are located on the right side under the table. Turn clockwise to lock.

### Depth Stop:

VMD-15: (K, Fig. 8) located on the left side. Set nuts for desired depth stop.

VMD-18: (F, Fig. 7) located in the front. Push in the button on the front of the quick adjust stop and move to desired position.

### Downfeed Handles: (G, Fig. 7)

Located on the right side of the head casting. Counter-clockwise movement advances the quill toward the table. Return spring retracts the handles. **Note:** the knob (I, Fig. 7) must be loose for the downfeed handles to work.

### Fine Feed Hand Wheel: (H, Fig. 7)

Located on the front of the head casting. To activate, tighten the knob (I Fig. 7) and turn the power feed speed range dial (J, Fig. 7) to zero.

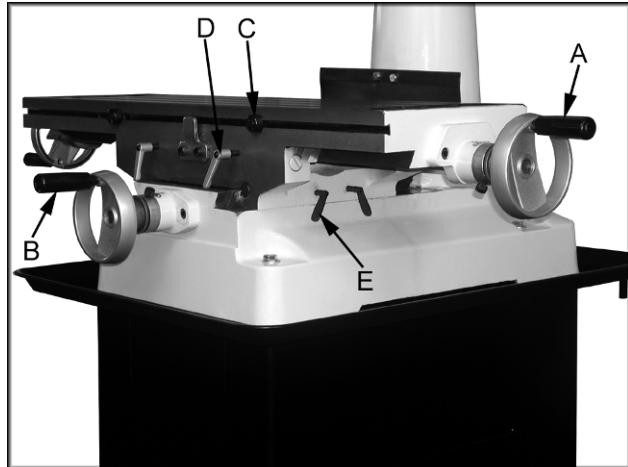

Fig. 6

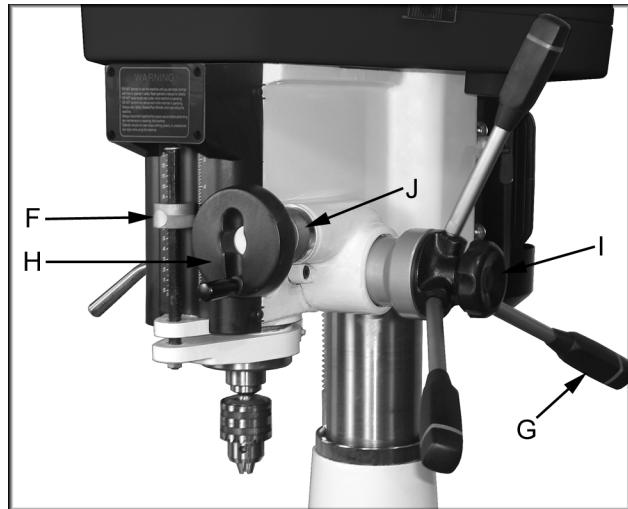

Fig. 7

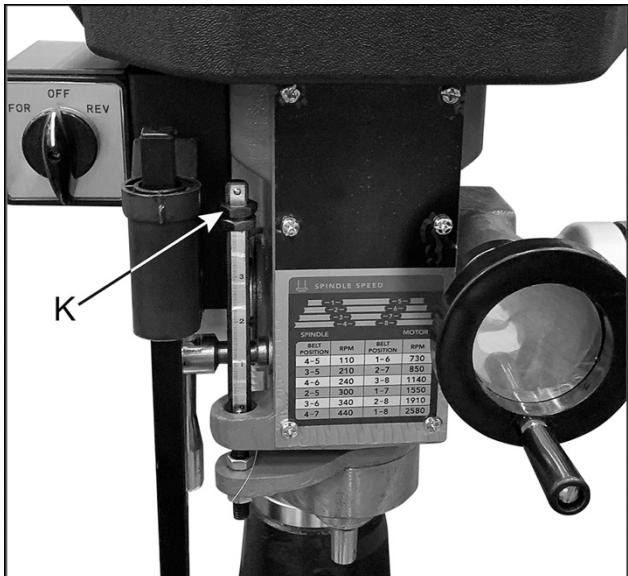

Fig. 8

### **Motor Mount Lock Lever: (A, Fig. 9)**

Located on the right side of the head casting. Locks and unlocks the motor mounting plate enabling the user to tension v-belts.

### **Head Pivot Lock: (B, Fig. 9)**

Located on the right rear of the head casting. Loosen two hex nuts to rotate the head 360°. Tighten two hex nuts to lock the head in position.

### **On-Off Switch: (C, Fig. 10)**

Turns spindle on and off, and changes spindle direction. Allow the spindle to come to a stop before reversing rotation.

### **Quill Lock Handle: (D, Fig. 10)**

Located on the front left of the head casting. Turn clockwise to lock the quill in the desired position. Turn counter-clockwise to release.

### **Head Elevating Crank Handle: (E, Fig. 10)**

Located at left rear of head casting. Loosen head pivot lock nuts (B, Fig. 9) and turn handle clockwise to raise head on the column and counter-clockwise to lower head.

**WARNING** This machine is designed and intended for use by properly trained and experienced personnel only. If you are not familiar with the proper and safe use of mill/drills, do not use this machine until proper training and knowledge have been obtained. Failure to comply may cause serious injury.

## **11.0 Adjustments**

### **11.1 Changing Spindle Speeds**

1. Disconnect the machine from the power source, unplug.
2. Loosen the motor mount lock lever (F, Fig. 11) and pull the motor toward the head casting to release tension on the v-belts.

3. Release two latches (G, Fig. 11) on belt cover and slide pulley guard open (I, Fig. 11).

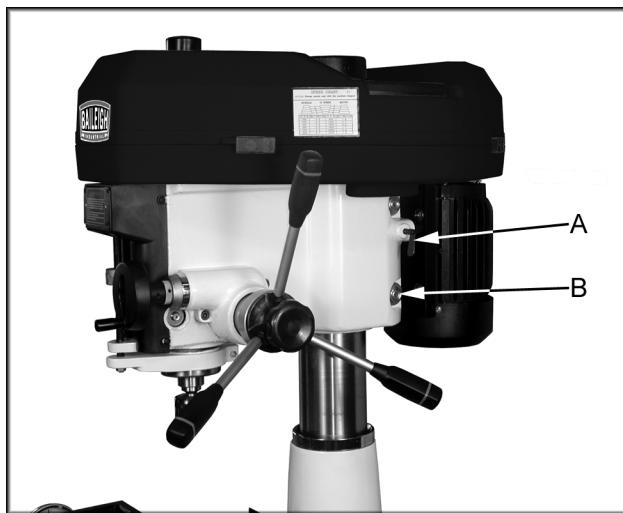

Fig. 9

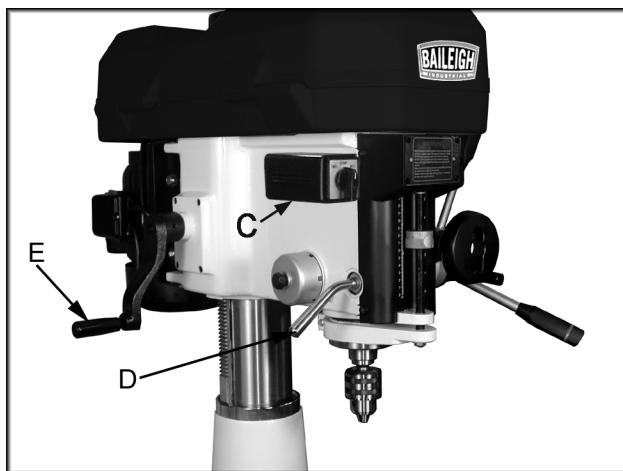

Fig. 10

Fig. 11

- Arrange the v-belts (A, Fig. 12) on the pulleys (B, Fig. 12) for the desired speed according to the speed chart (H, Fig. 11) on the belt cover.
- Tension the v-belts by pushing the motor away from the head casting and locking the motor mount lock lever (F, Fig. 11). **Note:** Proper tension is achieved when the slack in the belt is taken up and the belt does not slip during operation of the mill/drill.

## 11.2 Arbor Replacement

- Disconnect machine from the power source, unplug.**
- Release two latches (G, Fig. 11) on the belt cover and slide the pulley guard open (I, Fig. 11).
- Hold the spindle pulley (B, Fig. 12) to keep the pulley from moving while loosening the drawbar (C, Fig. 12) with a wrench.
- Loosen the drawbar approximately three to four full turns.
- Tap the drawbar head with a rubber mallet to dislodge the arbor.

**CAUTION** Do not loosen the drawbar more than three or four turns before hitting with a rubber mallet. Damage to the drawbar threads may occur.

- Grasp the arbor with one hand while loosening the drawbar with the other. Continue to loosen the drawbar until the arbor can be withdrawn from the spindle. Wipe out the spindle with a clean dry rag.
- Wipe down the new arbor with a clean dry rag and place the arbor into the spindle. Thread the drawbar into the arbor. Tighten the drawbar with a wrench while holding on to the spindle pulley.

**WARNING** Use caution when tightening drawbar. Do not allow hand to get pinched between pulley and belt. Failure to comply may cause serious injury.

**Note:** For best results, all milling operations should be done with the quill/spindle as close to the head assembly as possible. Lock spindle and table in place before starting milling operations.

Fig. 12

### 11.3 Gib Adjustment

After a period of time, movement of the table over the ways will cause normal wear. To adjust the gibbs for this wear:

1. The horizontal gib adjustment screw (A, Fig. 13) is found to the right on the table face. The traverse gib adjustment screw (B, Fig. 13) is found on the right side of the saddle under the table.
2. Turn each screw slightly clockwise to tighten. Turn the table hand wheels and check the tension.
3. Re-adjust as required.

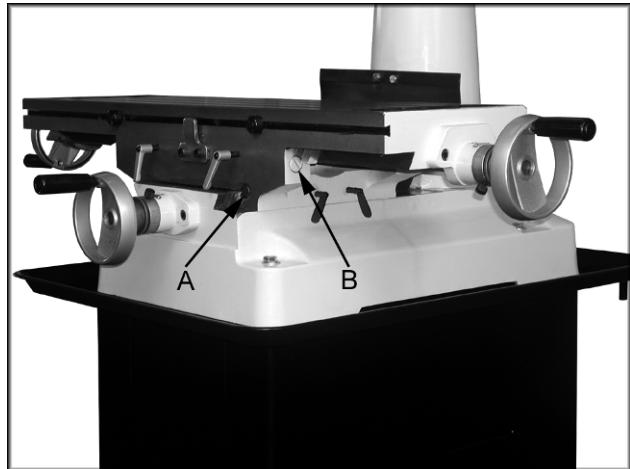

Fig. 13

### 11.4 Adjusting Spindle Return Spring

The spindle return comes pre-set from the factory and should not need any adjustment.

1. You do **not** want to remove the spring cap (C, Fig. 14).
2. Loosen knob (D, Fig. 14) just enough to rotate spring cap past the notch (E, Fig. 14).
3. Rotate the spring cap clockwise to decrease spring tension. Rotate the spring cap counter-clockwise to increase spring tension.

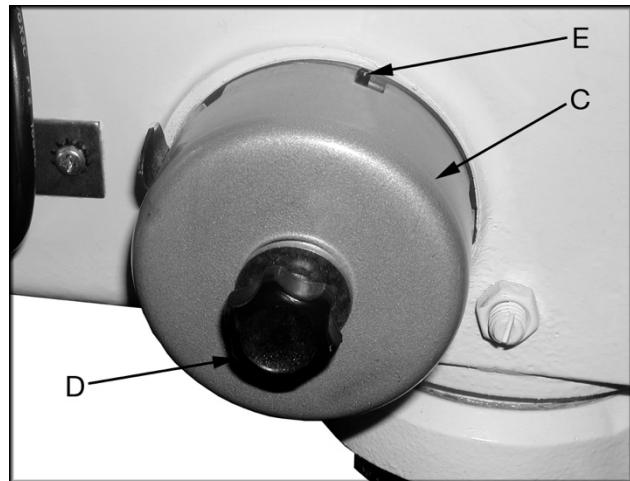

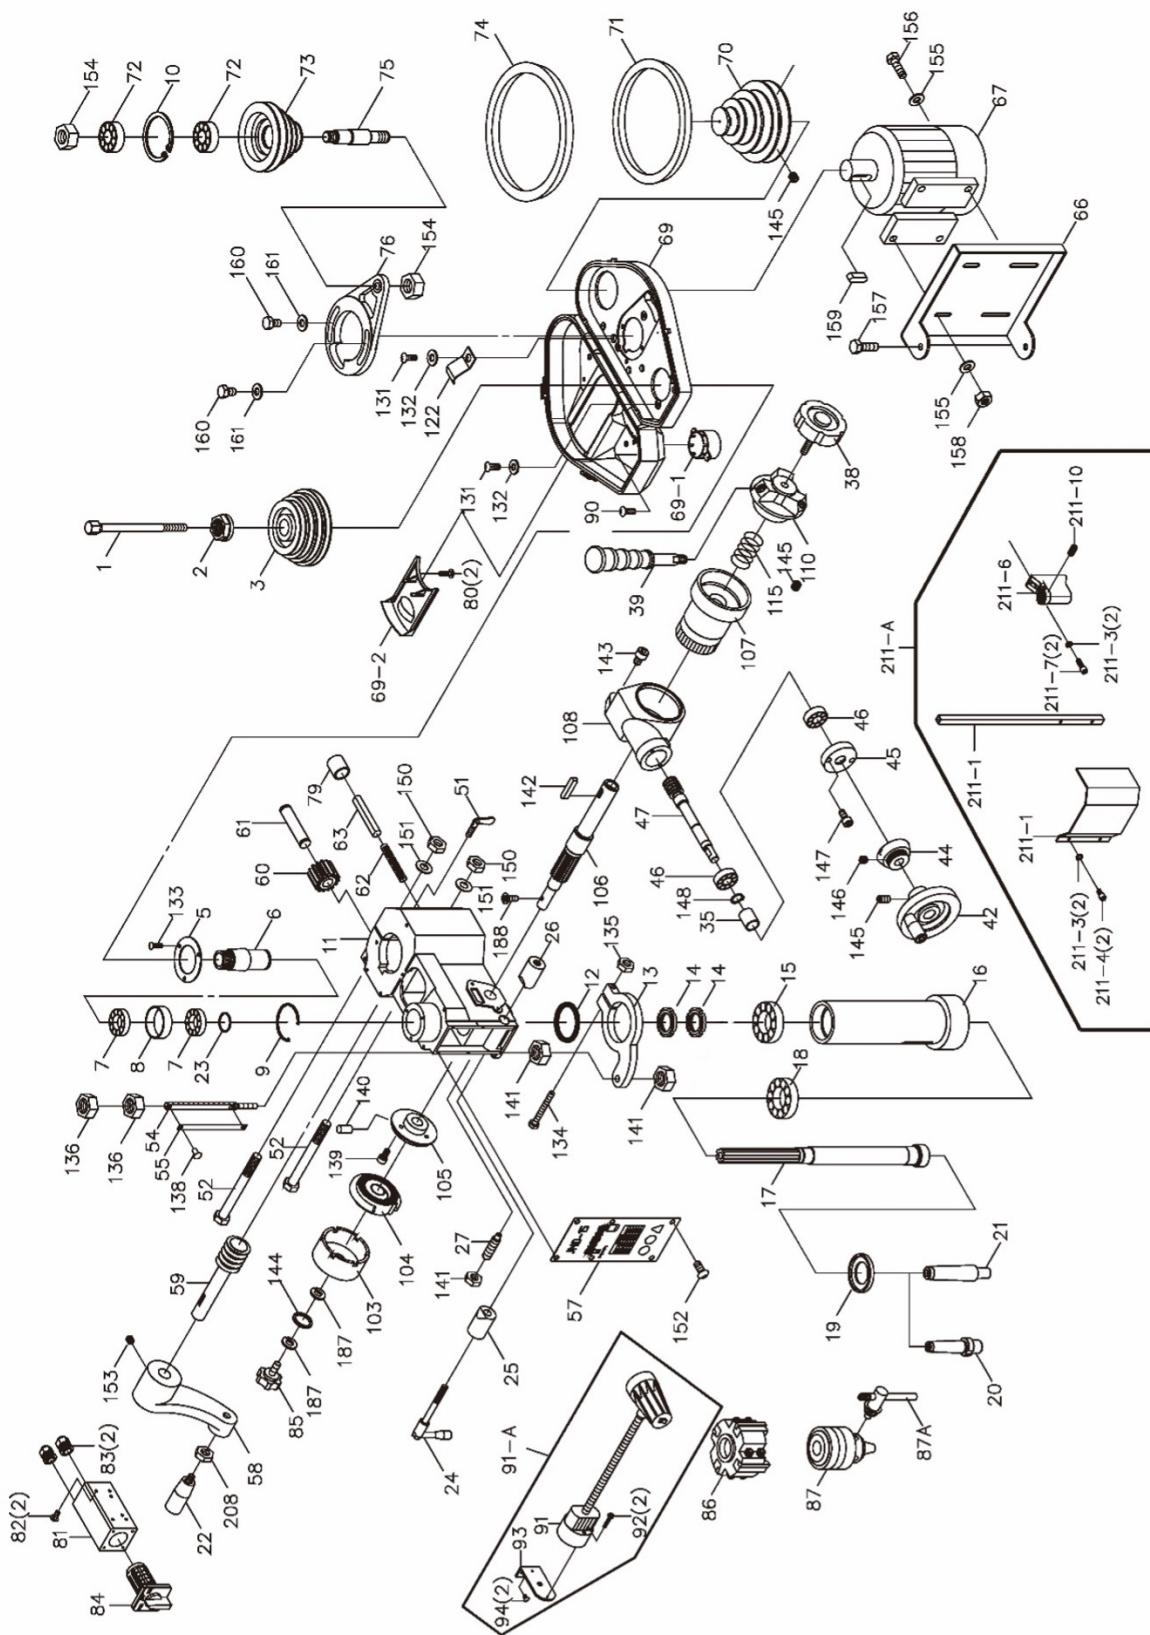

Fig. 14

## 12.0 Replacement Parts

### 12.1.1 VMD-15 Head Assembly – Exploded View

## 12.1.2 VMD-15 Head Assembly – Parts List

<b>Index No.</b>	<b>Part No.</b>	<b>Description</b>	<b>Size</b>	<b>Qty</b>

### 13.1 Wiring Diagrams: VMD-15

### 13.2 Wiring Diagrams: VMD-18

## 14.0 Warranty and Service

**Inspection & Acceptance.** Buyer shall inspect all Goods within ten (10) days after receipt thereof. Buyer's payment shall constitute final acceptance of the Goods and shall act as a waiver of the Buyer's rights to inspect or reject the goods unless otherwise agreed. If Buyer rejects any merchandise, Buyer must first obtain a Returned Goods Authorization ("RGA") number before returning any goods to Seller. Goods returned without an RGA will be refused. Seller will not be responsible for any freight costs, damages to goods, or any other costs or liabilities pertaining to goods returned without a RGA. Seller shall have the right to substitute a conforming tender. Buyer will be responsible for all freight costs to and from Buyer and repackaging costs, if any, if Buyer refuses to accept shipment. If Goods are returned in unsalable condition, Buyer shall be responsible for full value of the Goods. Buyer may not return any special-order Goods. Any Goods returned hereunder shall be subject to a restocking fee equal to 30% of the invoice price.

**Specifications.** Seller may, at its option, make changes in the designs, specifications or components of the Goods to improve the safety of such Goods, or if in Seller's judgment, such changes will be beneficial to their operation or use. Buyer may not make any changes in the specifications for the Goods unless Seller approves of such changes in writing, in which event Seller may impose additional charges to implement such changes.

**Limited Warranty.** Seller warrants to the original end-user that the Goods manufactured or provided by Seller under this Agreement shall be free of defects in material or workmanship for a period of twelve (12) months from the date of purchase, provided that the Goods are installed, used, and maintained in accordance with any instruction manual or technical guidelines provided by the Seller or supplied with the Goods, if applicable. The original end-user must give written notice to Seller of any suspected defect in the Goods prior to the expiration of the warranty period. The original end-user must also obtain a RGA from Seller prior to returning any Goods to Seller for warranty service under this paragraph. Seller will not accept any responsibility for Goods returned without a RGA. The original end-user shall be responsible for all costs and expenses associated with returning the Goods to Seller for warranty service. In the event of a defect, Seller, at its sole option, shall repair or replace the defective Goods or refund to the original end-user the purchase price for such defective Goods. Goods are not eligible for replacement or return after a period of 10 days from date of receipt. The foregoing warranty is Seller's sole obligation, and the original end-user's exclusive remedy, with regard to any defective Goods. This limited warranty does not apply to: (a) die sets, tooling, and saw blades; (b) periodic or routine maintenance and setup, (c) repair or replacement of the Goods due to normal wear and tear, (d) defects or damage to the Goods resulting from misuse, abuse, neglect, or accidents, (f) defects or damage to the Goods resulting from improper or unauthorized alterations, modifications, or changes; and (f) any Goods that has not been installed and/or maintained in accordance with the instruction manual or technical guidelines provided by Seller.

**EXCLUSION OF OTHER WARRANTIES.** THE FOREGOING LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. ANY AND ALL OTHER EXPRESS, STATUTORY OR IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE ARE EXPRESSLY DISCLAIMED. NO WARRANTY IS MADE WHICH EXTENDS BEYOND THAT WHICH IS EXPRESSLY CONTAINED HEREIN.

**Limitation of Liability.** IN NO EVENT SHALL SELLER BE LIABLE TO BUYER OR ANY OTHER PARTY FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, LOST PROFITS OR DOWN TIME) ARISING FROM OR IN MANNER CONNECTED WITH THE GOODS, ANY BREACH BY SELLER OR ITS AGENTS OF THIS AGREEMENT, OR ANY OTHER CAUSE WHATSOEVER, WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY OF LIABILITY. BUYER'S REMEDY WITH RESPECT TO ANY CLAIM ARISING UNDER THIS AGREEMENT IS STRICTLY LIMITED TO NO MORE THAN THE AMOUNT PAID BY THE BUYER FOR THE GOODS.

**Force Majeure.** Seller shall not be responsible for any delay in the delivery of, or failure to deliver, Goods due to causes beyond Seller's reasonable control including, without limitation, acts of God, acts of war or terrorism, enemy actions, hostilities, strikes, labor difficulties, embargoes, non-delivery or late delivery of materials, parts and equipment or transportation delays not caused by the fault of Seller, delays caused by civil authorities, governmental regulations or orders, fire, lightening, natural disasters or any other cause beyond Seller's reasonable control. In the event of any such delay, performance will be postponed by such length of time as may be reasonably necessary to compensate for the delay.

**Installation.** If Buyer purchases any Goods that require installation, Buyer shall, at its expense, make all arrangements and connections necessary to install and operate the Goods. Buyer shall install the Goods in accordance with any Seller instructions and shall indemnify Seller against any and all damages, demands, suits, causes of action, claims and expenses (including actual attorneys' fees and costs) arising directly or indirectly out of Buyer's failure to properly install the Goods.

**Work By Others; Safety Devices.** Unless agreed to in writing by Seller, Seller has no responsibility for labor or work performed by Buyer or others, of any nature, relating to design, manufacture, fabrication, use, installation or provision of Goods. Buyer is solely responsible for furnishing and requiring its employees and customers to use all safety devices, guards and safe operating procedures required by law and/or as set forth in manuals and instruction sheets furnished by Seller. Buyer is responsible for consulting all operator manuals, ANSI or comparable safety standards, OSHA regulations and other sources of safety standards and regulations applicable to the use and operation of the Goods.

**Remedies.** Each of the rights and remedies of Seller under this Agreement is cumulative and in addition to any other or further remedies provided under this Agreement or at law or equity.

**Attorney's Fees.** In the event legal action is necessary to recover monies due from Buyer or to enforce any provision of this Agreement, Buyer shall be liable to Seller for all costs and expenses associated therewith, including Seller's actual attorney fees and costs.

**Governing Law/Venue.** This Agreement shall be construed and governed under the laws of the State of Wisconsin, without application of conflict of law principles. Each party agrees that all actions or proceedings arising out of or in connection with this Agreement shall be commenced, tried, and litigated only in the state courts sitting in Manitowoc County, Wisconsin or the U.S. Federal Court for the Eastern District of Wisconsin. Each party waives any right it may have to assert the doctrine of "forum non conveniens" or to object to venue to the extent that any proceeding is brought in accordance with this section. Each party consents to and waives any objection to the exercise of personal jurisdiction over it by courts described in this section. Each party waives to the fullest extent permitted by applicable law the right to a trial by jury.

### Summary of Return Policy.

- 10 Day acceptance period from date of delivery. Damage claims and order discrepancies will not be accepted after this time.
- You must obtain a Baileigh issued RGA number PRIOR to returning any materials.
- Returned materials must be received at Baileigh in new condition and in original packaging.
- Altered items are not eligible for return.
- Buyer is responsible for all shipping charges.
- A 30% re-stocking fee applies to all returns.

Baileigh Industrial Holdings LLC makes every effort to ensure that our posted specifications, images, pricing and product availability are as correct and timely as possible. We apologize for any discrepancies that may occur. Baileigh Industrial Holdings LLC reserves the right to make any and all changes deemed necessary in the course of business including but not limited to pricing, product specifications, quantities, and product availability.
